

In the Claims

Please amend the Claims as follows (a marked-up version of the claim amendments is attached hereto):

---

Claim 1 (Fourth Amendment) A method for treating inflammatory musculoskeletal connective tissue disorders comprising the steps of:

providing a low frequency sonic transducer;

immersing said low frequency sonic transducer in an interior of a liquid-containing container and below an upper surface of a liquid in said liquid-containing container;

CU positioning a person having an inflammatory musculoskeletal connective tissue disorder a therapeutically beneficial distance from said container; and

exposing said person for a therapeutically beneficial period of time to acoustic waves from said low frequency sonic transducer at a therapeutically beneficial frequency;

wherein said therapeutically beneficial frequency is between approximately four hundred and eight hundred Hertz.
